

Hosting “*Mobile Phone Forensics for Newbies*” for Cellular Forensics, LLC

What Are the Host’s Responsibilities?

1. The Host will locate an acceptable room for a full two (2) day period. This room can be a conference room, school room, church room, etc. Said room must have WIRELESS Internet connectivity for the students and be able to accommodate up to 10 students with laptops. Tables, chairs and electricity connections must be present.
2. The Host is also responsible in assisting the Trainer with advertising the 2 day training event to the area’s respective law enforcement agencies, PI agencies and state PI and LE associations.
3. The Host does not have to collect any money but only direct those interested to the Training website where the student can register and pay on their own.
4. If the Host directs a student to the Trainer’s website, the Host must notify the Trainer so Host will receive credit for that student.

What Does the Host Receive?

1. The minimum number of paid students that must be present for out of state training is eight (8). This is due to the tremendous cost imposed on the Trainer for flight, hotel, meals, etc. If the Host is able to assist in having at least 8 paid students (not counting themselves) present, the Host will receive ½ off the full package pricing (\$2995.00 divided by ½ is \$1497.50)
2. However, if the Host is able to assist in producing 9-10 paid students (not counting themselves) in the class, the Host will receive the full package free of charge (\$2995.00 package for \$0.00)!

Got Questions?

Just give me a call at (864) 252-7451 or email me at tom@cellularforensics.com

Thank you for your interest and I hope to hear from you soon!
